## About Endocrinology

Endocrinology is a branch of medicine that concerns the study of hormones and its disorders. The endocrine system consists of several glands located in different parts of the body that secrete hormones. The endocrine disorders are a varied group of diseases that usually occur due to under functioning or over functioning of these glands. Diabetes, the most common endocrine disorder encountered in clinical practice, occurs due to decreased secretion of insulin, a hormone produced from pancreas, an endocrine gland.

The common endocrine disorders are the following.

- Diabetes
- Thyroid disorders- hypothyroidism, hyperthyroidism, goitre, thyroid cancers
- Obesity
- Sexual disorders, erectile dysfunction, hypogonadism & reproductive endocrinology
- Male infertility
- Hirsutism (Excessive facial or body hair in females)
- Prolactinoma (Excessive PRL secretion)
